

VICTORIAN STATE BUDGET - EDUCATION PAYMENT NEWS

Information regarding the \$400 education payment

KCV has received a number of calls from carers wanting to know more about the \$400 education payment in the Victorian State budget. Unfortunately, there does not seem to be more information available. It may be that this payment was a late budget item and that the education department has not had time to finalise the details. As more information becomes available, KCV will post it on the KCV website and Facebook page.

In the meantime a statement about the Victorian budget is available here:
