Victorian Government CARE ALLOWANCES

The DFFH provides endorsed¹ kinship carers, foster carers, permanent carers and special needs local adoptive parents with a **care allowance** to assist in providing care for children and young people who cannot live with their parents, following intervention by child protection. The care allowance contributes to the costs incurred while providing care and is paid fortnightly from the date of endorsed placement.

The care allowance is not a 'payment' for being a carer and is not considered a source of income for the purposes of annual tax returns, testing eligibility for Australian Government allowances or when applying for loans from financial institutions. Care allowance rates are not affected by Centrelink or Commonwealth child support agency payments, or Youth Allowance payments.

Kinship carers assessed and approved by child protection are automatically eligible for the level-one care allowance (see below) at the beginning of the placement. Where the child is assessed as having higher needs, carers may be eligible for a higher care allowance level.

Care allowance structure and payment rates 2025–26

¹ An endorsed placement is when child protection determines that the placement is required for the safety of the child or young person, and the kinship carer has been assessed and approved.

Victorian Government 18-21 YEARS AND SCHOOL ATTENDING

This payment provides ongoing support and placement stability to young people completing their secondary education qualification. Where a young person has turned 18 years of age and is continuing to attend school at a senior level (eligibility provisions apply), the care allowance may be extended up to 21 years of age when they are school attending.

This extension may occur for the calendar year in which the young person turns 18, and for the calendar years beyond which they turn 18 and up to 21 years of age, if they are still attending school at a senior level (full-time or part-time).

Carers must maintain a private accommodation arrangement within their home for a young person for whom they are in receipt of a care allowance on the date of the young person's 18th birthday.

The Department's **Care Allowance Helpdesk** will send a letter out to kinship carers in advance of the young person's 18th birthday, advising that the carer may be eligible for an extension of the care allowance.

Further information: Contact the **Care Allowance Helpdesk**, call **1300 552 319** or email caregivers.mgt@dhhs.vic.gov.au

Victorian Government EDUCATION AND MEDICAL PAYMENT

To assist in meeting the education and health needs of children and young people in out-of-home care. This is included in the fortnightly care allowance.

Further information: Contact the **Care Allowance Helpdesk**, call **1300 552 319** or email caregivers.mgt@dhhs.vic.gov.au

Victorian Government CLIENT SUPPORT FUNDING

Client support funding is additional funding that carers may be eligible for to help cover the costs for extraordinary expenses. These are for the purchase of specific items or services that exceed the day-to-day costs of what the care allowance contributes to, or to assist with high costs that place an unreasonable financial burden on carers.

Where a child or young person has extraordinary needs or needs that are above the day-to-day cost of caring, kinship carers should speak with the child or young person's child protection worker or agency case manager to discuss access to client support funding.

Further information: Contact the **Care Allowance Helpdesk**, call **1300 552 319** or email caregivers.mgt@dhhs.vic.gov.au

Victorian Government EDUCATION ASSISTANCE INITIATIVE

This payment contributes to meeting the educational costs for a child or young person subject to Victorian child protection intervention. The two age bands for the allowance are 5–11 years and 12–18 years (5–11 years \$384.03, 12–18 years \$576.03).

A quarterly payment is separate to the Care Allowance and automatically paid to the carer's nominated bank account. It can be paid in arrears to primary or full-time carers, based on the number of days a child or young person has been in the care arrangement.

Further information: Contact the **Care Allowance Helpdesk**, call **1300 552 319** or email caregivers.mgt@dhhs.vic.gov.au

Victorian Government NEW PLACEMENT LOADING (six months)

This loading is to assist in meeting the immediate or 'start-up' costs of caring for a child or young person, subject to Victorian child protection intervention.

If a carer is receiving a level-1 care allowance, an additional amount is paid to the carer over the first six months of the placement or care arrangement and included in the fortnightly care allowance.

Further information: Contact the **Care Allowance Helpdesk**, call **1300 552 319** or email caregivers.mgt@dhhs.vic.gov.au

Disability Practice Advice

Each DFFH Division has a Principal / Disability Practice Advisor. The P/DPAs work to maintain specialist disability expertise and resourcing to support children with complex disability needs and their families, following the transition of disability services to the NDIS.

Functions of the P/DPAs

- Provide consultation and capacity building support to the child protection workforce on disability and service systems (including the National Disability Insurance Scheme) to achieve better outcomes for vulnerable families with disability.
- Assist family services with specialist disability advice and linkages to facilitate early intervention to support children with complex disability needs and their families to reduce the risk of subsequent need to involvement with the department.
- Assist with the transition of children with a disability within the child protection system to adulthood arrangements,
- In exceptional circumstances, escalate critical issues to the NDIA relating to NDIS funding for children with complex disability needs where there is a significant need identified and all alternative avenues to resolve the issues directly with the NDIA have not been successful.

Objectives of the role

- Prevent children with a disability from requiring accommodation outside the family home because of their complex disability support needs.
- Assist families, child protection and family services to navigate the NDIS and other mainstream support systems and increase the NDIS participation of children within or at risk of entering the CP system
- Promote the inclusion of appropriate disability and parenting supports in NDIS plans to help maintain the sustainability of care in the family home, or in statutory care, and to support family reunification, where suitable
- Support early planning for young people into sustainable adult care arrangements that best meet their needs.
- Build the ongoing capacity of the child and family services sector to provide specialist support required for families with children with complex disability support needs by effectively navigating the NDIS and utilising appropriate sources of secondary consultation and referral.
- Work collaboratively with Child Protection, Family Services, and the Children with Complex Disability Support Needs Program to identify families who would benefit from a service response
- Provide consultation to Child Protection in their support of children with disability in the statutory system, build their capacity to navigate the NDIS and improve planning and outcomes for children, including leaving care planning.
- Build relationships with mainstream services, such as specialist disability schools and health services, to encourage early identification and support of families where the complexity of the disability support needs is likely to cause increased family pressure and potential for the child to require care outside of the family home.

Part 2

Commonwealth Assistance

Australian Government FAMILY TAX BENEFIT

Family Tax Benefit (FTB) helps with the cost of raising children. It's made up of two parts:

- FTB Part A for each child. The amount carers receive depends on the family's circumstances.
- FTB Part B provides extra assistance to single parents, non-parent carers (including grandparents) and some coupled families with one main income earner.

If a child under one comes into care or carers adopt a child of any age, FTB Part A may increase. This increase is **Newborn Supplement** and will last for up to 13 weeks. If carers receive Newborn Supplement carers will also receive **Newborn Upfront Payment** as a one-off payment.

For more information

- Go to servicesaustralia.gov.au/grandparentcarers or servicesaustralia.gov.au/nonparentcarers
- Call the Grandparent, Foster and Kinship Carer Adviser free on **1800 245 965**.

Australian Government CHILD CARE SUBSIDY

Approved child care may include outside school hours care, family day care, vacation care, long day care, in-home care and some occasional-care services.

If carers are eligible for Child Care Subsidy, they receive extra help with the cost of approved child care. To receive this payment, carers need to be one of the following:

- transitioning from certain income support payments to work
- experiencing temporary financial hardship
- caring for a child who is vulnerable or at risk of harm, abuse or neglect.

For more information

- have 65% or more care of a grandchild or great grandchild
- receive an income support payment, and
- make the day-to-day decisions about the child's care, welfare and development.

It provides extra help with the cost of approved child care. If carers aren't on an income support payment they won't be eligible for Additional Child Care Subsidy (Grandparent). However, carers may still be eligible for Child Care Subsidy.

For more information

- go to servicesaustralia.gov.au/grandparentcarers or servicesaustralia.gov.au/nonparentcarers

These cards give carers access to some cheaper medicines under the:

- Pharmaceutical Benefits Scheme (PBS)
- medical services funded by the Australian Government.

Carers may also have access to other concessions provided by state, territory and local governments. Carers may already have a **Health Care Card** or a **Pensioner Concession Card** if carers receive a payment.

If carers aren't receiving a payment from Centrelink, they may still be eligible for a **Low Income Health Care Card**.

If carers are caring for someone else's child, such as a grandchild, carers may be eligible for a **Foster Child Health Care Card**. There isn't an income or assets test for the Foster Child Health Care Card. Centrelink issue it in the name of the child carers care for. Carers must apply for a new card for any child coming into your care.

For more information

- go to servicesaustralia.gov.au/grandparentcarers or servicesaustralia.gov.au/nonparentcarers

- the child's Medicare number
- an account or receipt with the child listed as the patient, and
- your Medicare number

Where carers have high out-of-hospital medical expenses, the **Medicare Safety Net** may help carers cover some of these costs. Australian Government ADDITIONAL CHILD CARE SUBSIDY

The Additional Child Care Subsidy is a payment for families who need practical help with the cost of child care to support their child's wellbeing.

If a parent feels they need help to support their child's wellbeing, it is a good idea to tell their child care provider. The provider may tell parents if their child could benefit from Additional Child Care Subsidy.

If the provider determines eligibility for Additional Child Care Subsidy, parents may receive a higher subsidy for up to six Centrelink weeks. If the provider thinks this subsidy is needed for more than six Centrelink weeks, they may apply to Centrelink to approve Additional Child Care Subsidy for longer periods.

Families are exempt from the Child Care Subsidy activity test for any child that is eligible for the Additional Child Care Subsidy. This means they will be entitled to access up to 100 hours of subsidised child care per fortnight, regardless of their activity.

The Additional Child Care Subsidy is paid directly to approved child care services to reduce the cost of child care for eligible families. Eligible families will receive a subsidy equal to the actual fee charged by the child care service, up to 120 per cent of the

If the provider has determined that a child is no longer eligible, they will notify Centrelink and the Additional Child Care Subsidy will cease. The family may still be eligible to receive the Child Care Subsidy.
