

KUC build relocatable, one- or two-bedroom studios, with a bathroom, in backyards of a family/ carer's home. The extra room relieves overcrowding; eases tension and provides young people with a secure and stable environment. The studio remains in place for as long as it is required.

## Who can be supported?

The program supports people aged 12 to 25 who have been identified by community service organisations as experiencing or at risk of homelessness.

## How to apply

Applications process is simple and straightforward, working with support or case workers, or community service organisations to ensure young people in most urgent need get the space they require. More information: https://www.kuc.org.au/our-programs/studio-program/

### **Scholarships Program**

The Kids Under Cover Scholarships Program helps to nurture the potential of young people by offering financial support that can re-engage them with education or training; or help take their studies to the next level.

KUD scholarships Program is tailored for young people who are eager to pursue their educational development but need support to procure the resources required for these experiences. It is often additional expenses such as uniforms, laptops, excursions, and camps that can lead to social exclusion and discouragement for young people. These scholarships are not only awarded to young people residing in our studios, but also their siblings in the main home –helping to break the cycle of poverty and disadvantage.

### Who is eligible for a KUC scholarship?

Scholarships are offered to young people aged 12 -25 years old who were undertaking schooling, capital TAFE, university over occasional training and to occupy or have a kid's undercover studio on the property.
